QUALITY CONTROL MAY BE ACHIEVED BY

- Inspection Of Raw Material To Ensure That Qualitative Raw Ingredients Are Used.
- Inspection On Process To Ensure That Desire Quality of Finished Product are Achieving
- Inspecting Final Product Ensure That Premium Quality Products Are Sent To The Consumer.

Why Us ?

- Fully Automated Plan To Manufacturing Of Dehydrated Onion & Garlic Products.
- Focussing On Premium Quality Product.
- Customise Packaging.
- Supply Quantity & Quality Around The Year.
- Skilled Work Force To Maintain Quality.

Grading & Peeling

The Onion Lots Are Graded As Per The Size & Quality. And Then Peeled. The Top Layer Of The Raw Onion Bulbs Are Removed.

Washing & Slicing

The Peeled Onions Are Washed By Agitation And Are Then Sliced In The Slicing Machine. Strict Hygiene Is Maintained While Washing.

Drying

Sliced Onions Are Fed In The Imperial Dryer For Dehydration Without Effecting The Taste And Pungency.

Sizing

As Per The Buyer Specification, Kibbled Undergoes Milling And Sizing Process. The Produce Is Separated Into Chopped, Minced And Granules Vide Gytratory Screens.

Kibbling & Sorting

Dehydrated Onions Are Shifted To Clean Air Conditioned Rooms And Fed Into The Kibbling Machine To Obtain The Kibbled Form. The Skins Are Then Removed From The Kibbled With Blowers. Manual Sorting Is Then Carried Out To Remove Further Impurities.

Packing

The Finished Product Are Weighed And Sealed In Moisture Proof Food Grade Poly Bags. The Bags Are Packed In Corrugated Boxes Or Paper Bags. The Product Is Now Ready For Export.

Vision

Our vision is to be the best company in the world in the eyes of our customers. We expect and demand the best we have to offer by always keeping Our Company's values top of mind.

Mission

Producing Premium Quality Products With Affordable Price & Well Distributing Channel In Whole Market

DEHYDRATED LEAF POWDERS
